ORTHODONTISTS | CHENIN ORTHODONTICS

Chenin Orthodontics, a father and son practice headed by Drs. Stephen (left) and David Chenin, has provided dental care to the Las Vegas Valley for many years and is highly respected. The practice has become known for quality patient care, cutting edge techniques and technology. Along with clinical orthodontic excellence, the doctors create personal connections with their patients,

give generously and support the community as well as those in need.

A native of Las Vegas, Dr. Stephen Chenin is among a handful of orthodontists in Nevada to be a board certified orthodontist/diplomate of the American Board of Orthodontics. Dr. Stephen has over 25 years of clinical experience and is often recognized as one of the top dental practitioners in the community. A graduate of the University of Southern

California Orthodontic Residency Program, Dr. Stephen is a community advocate who works with local schools, sponsors soccer and little league teams and gives his time to the Southern Nevada Dental Society.

Dr. David, Stephen's son, attended the University of the Pacific's Arthur A. Dugoni School of Dentistry where he earned a Doctorate of Dental Surgery degree. After graduation, he obtained his Nevada, California and Western Regional Examining Board dental licensure. He then pursued his Certificate in Orthodontics and Master's of Science at University of the Pacific's Orthodontic Residency Program where he currently serves as an adjunct faculty member. Dr. David is also a philanthropist who volunteers his talents to underserved children and low income dental clinics. He recently traveled to San Salvador with a medical team to treat and rehabilitate patients with cleft lip and palates among other craniofacial anomalies and syndromes.

Both Drs. Stephen and David Chenin are known for their compassion for others and their personal dedication to the community as well as underprivileged patients throughout the world.
