Three generations of Drs. Chenin in Nevada

Drs. Joe, David, and Stephen Chenin

Dr. Joseph Chenin, a retired dentist, came to Las Vegas in 1951 where he started his practice at Nellis Air Force Base. While at Nellis AFB he worked on many projects, including some related to the effects on pilots' teeth caused by high speed jet flight. He was the 29th dentist in the State of Nevada. In 1978, Joseph's son, Stephen, started an orthodontic practice and was later joined by his son, David, in 2000. Stephen Chenin has another son, Douglas, who practices dentistry in California. ♦
